

Club Miata Vancouver Island Christmas Party  
Saturday, 14<sup>th</sup> Dec 2019  
Morpeth Hall at 620 Morpeth Ave Nanaimo  
Cocktails: 4:30 pm ~ Dinner: 5:00 pm

This year's Christmas Party will again be centrally located in Nanaimo. We're starting a bit earlier, for those that would prefer to drive home the same night. This is always a fun evening, so mark your calendars now.

***This year the Party is being catered to at a cost of \$20 each and it was decided at the AGM that the Club will pay for the hall and caterer for all members that are current and on today's roster, so if you commit to coming, and are then unable to attend, sorry, you will still have to pay. Likewise, we won't be able to allow any late comers as we have to give our numbers to the Caterer by the 9<sup>th</sup> of Dec.***

***Attention all Members: Please pay your 2020 Club Dues at the Christmas Party in the amount of \$25.00, and the dinner is on the Club. Guests are welcome but must pay \$20 each.***

***Please bring your own refreshments.*** Coffee and Tea will be available. We'll get a work crew together for 3:30 pm to set up the seating area. We've had great work crews in previous years, getting the hall set up in no time as well as cleaning up before we head home ... hopefully you can all make it again, we appreciate your continued help. The caterer will be responsible for the kitchen set up and clean up.

Keeping with the tradition, we'll have a unisex gift exchange again. A reminder, you need to bring a gift in order to receive a gift. The gift exchange is by the individual, not the Miata. Please keep the value of your gift between \$10-15 (*no less than \$10 please*). The exchange rules may be different, but as many of you know... it's all in the wrapping! It really is a lot of fun, but please the most important thing to remember is to keep your gift's value no less than \$10.

Please RSVP by e-mail [Marijke captainscabin@shaw.ca](mailto:Marijke_captainscabin@shaw.ca) or by phone at 250-468-0191 by **Monday, Dec 9<sup>th</sup>** so that we can have a head count.
